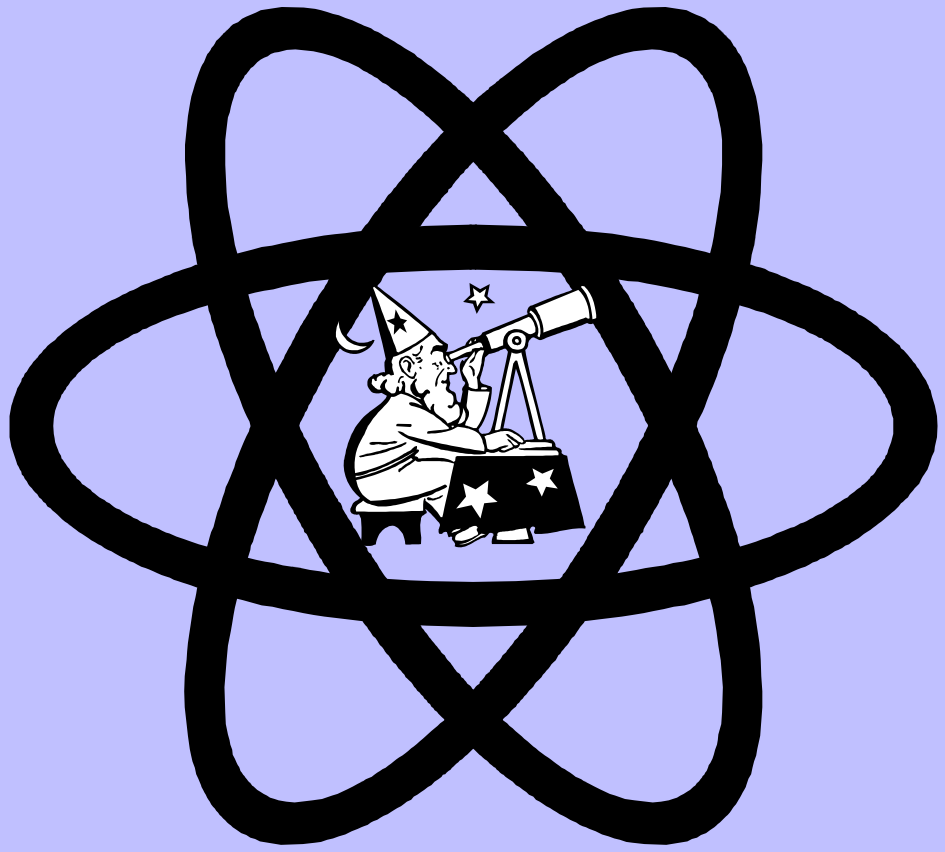
DoD Team Mission – *Operating Mission Statement*

- **Provide enhanced, centralized HQ USACE support and liaison to DoD headquarters organizations, activities and other governmental agencies across USACE military business lines.**
- **Serve as conduit between USACE and DoD headquarters and other governmental agencies to relay key messages, information on programs, needs and issues.**
- **Coordinate centralized, integrated communication and support for these organizations to enhance USACE-DoD HQ relationships.**
- **Provide specialized support services to HQDA for current and new Army missions.**

“The Perfect Storm”



Where is Army Headed?

Change	Impacts	Opportunities	Risks
GWOT	Contingency const & inst mgt & nation building	Effective spt for core Army & Nation missions	Over-extend USACE / spt to other core missions
Transforming Modular Army	Faster, flexible, less durable, cheaper construction	Spt for core Army change; Demo USACE relevance,readiness	Basic change in Army core culture/ process; scope/times challenging
Transform Inst Mgmt IMA/ACA/NETCOM	Centralization/Stds New/fewer players & policies; new relationships	Turn-key pgm support; Std. approaches; fwd LNOs; Innovative spt	Total pgm changes; Acute resource shortages; USACE relevancy
Installations As Flagships	Platform for Soldiers to live, train, mobilize/families; Reach-back support	Help shape/support/achieve CSA focus area	TBD
BRAC 05	MILCON FYDP Changes Work surge icw/peaks; Infrastructure shrinkage	Turn-key pgm support Facilitate Joint-fixes; Faster, cheaper const.	USACE readiness; Private or Joint solutions may exclude USACE
Global Force Realignments (GPI) > CONUS Exp. Army	Concurrent peaks; paid fm existing Army $; mil > civil conversions; More stable/faster deploy.	Turn-key pgm support Faster, cheaper const.; Planning support; Demonstrate value to Army	Pgm/org. turbulence; Cost/time pressures; Privatized or Joint solutions
Privatization	Takes MILCON & Army infrastructure out for future; 'contracted' Army	Facilitate privatization pgm & technical spt; Export ideas to Army FH MILCON	Better support for Army; Decreased USACE workload/relevancy

USACE Support for Installations
Some Possible Strategic Directions

- Build on strengths
  - **Expand concept of LNOs, PMs Forward to additional functions, locations**
  - **Enhance technical competence, knowledge management, and organizational learning across USACE; enhance capabilities at Centers & strong Districts**
  - **Enhance effective Public Works communication support**
  - **Build on best practices across Services and private sector**
- Improve Relationships
  - **Develop relationship and communication plan at all domains—National, regional, local**
  - **Strengthen and expand Installation Support CoP & DoD Team capabilities**
- Enhance Relevant Services
  - **Create innovative solutions to streamline property acquisition and disposal and leverage private sector techniques**
  - **Embed sustainability and environmental operating principles in all projects**
- Fill Gaps Between Existing and Needed Services
  - **Act as catalyst for developing & implementing contingency base operations doctrine**
  - **Facilitate dialog on future installation strategy, e.g, “Installations as Flagships”, within Army, with DOD, and other Services**
